ULTRA HIGH SPEED

Speed & Accuracy

- like you've never seen before

The ALS FastPaQ Series of high-speed label applicators have been designed with flexibility and ease of use in mind. Their extensive features and compact, modular design make them suitable for a wide variety of high-speed applications.

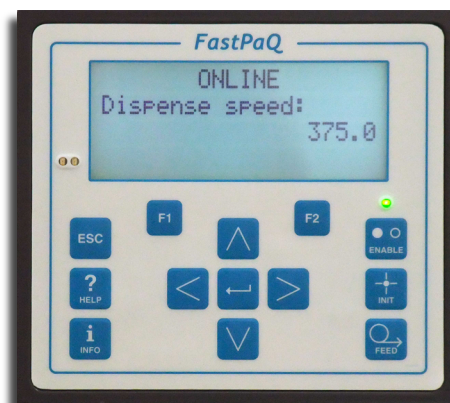

Model / Speed:

Model	Speed
HS-150	150m/min
VHS-250	250m/min
UHS-375	375m/min

Accuracy: +/- 0.4mm

Standard Features

- Compact modular design allows integration into the tightest of production lines.
- Advanced speed matching - allows accurate labelling through extreme product speed changes and production stoppages - avoid lost product through inaccurate labelling everytime the production line is stopped or started.
- Simple Menus & rapid single-button machine set-up gets you running almost immediately.
- Store previous set-ups and instantly recall the settings for multiple label/product combinations.
- Information display - just press the "Info" button to show real-time production rate, product & label counters and time spent labelling.
- Automatic missing label compensation - avoids unlabelled product
- Automatic web break detection.
- Detailed message and help functions.

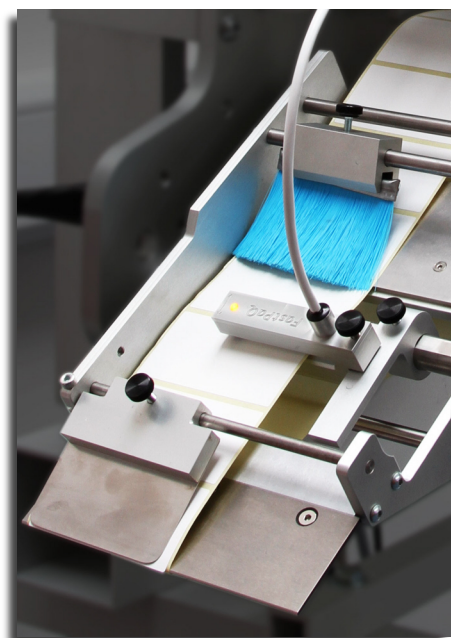

Non-Stop, Continuous Operation

- Tandem Operation - Two machines working together, each with large 400mm OD rolls; when one runs out, the other takes over.
- Fan-Folded Labels - splice the end of the box of labels to the start of the next box, on-the-run, with continuous vacuum extraction of the waste backing liner.

Standard Specifications

Maximum Label Width:	115mm
Maximum Label Length:	500mm
Machine Body Length:	510mm
Machine Body Height:	510mm
Operating Temperature:	5°C - 50°C
Maximum Humidity:	85% (non-condensing)
Power Supply:	Single phase 120V or 240V +/-15%

ALS is a leading European supplier and manufacturer of high-quality, competitively priced labelling systems, consumables and accessories. In addition to the ALS FastPaQ Series, the company offers a comprehensive range of label applicators, print & apply systems and thermal transfer printers, to meet labelling requirements across an extensive range of industries and applications.
