Technical Specifications

Print Area:	Print engine dependent
Dimensions:	592mm (H) x 650mm (W) x 728mm (L)
Weight:	75kg
Label Dimensions:	Label Width: Up to 183mm* Label Length: Up to 200mm*
Label Packaging:	Standard: up to 305mm diameter rolls Option: up to 432mm diameter rolls (with powered unwind) Label Cores: 76mm internal roll diameter
Dispense Speed:	Up to 400mm per second*
Label Placement Accuracy:	Up to +/- 0.8mm, subject to product accuracy and presentation
Electrical:	220 VAC, 50 Hz, 3 Amps
Air (as needed):	4cfm at 90psi – performance & label size dependent
Print Engines Available:	Sato, Zebra, Datamax, Novexx, Avery Dennison
*Specifications:	Dependent upon print engine and label size
CE Certified:	Yes

Description:

The ALX 3138 is a high-performance 1:1 print & apply labelling machine, built to handle a wide range of industrial applications, designed to exceed all current and future expectations.

Batch numbers, barcodes, date of manufacture, product descriptions, graphics - the amount and complexity of variable information on products and packaging is increasing all the time. The need for quicker processing, faster printing and more reliable print & apply systems has grown rapidly. The ALX 3138 Print & Apply label applicator uses a thermal transfer print engine to over-print variable text, graphic or barcode information onto labels and apply them using tamp-blow, air-blow or direct ("wipe-on") application techniques. A large variety of print sizes, plus capabilities for printing barcodes, real-time data and sequential numbers on the same label, are standard features. One-to-one print and apply allows for the immediate application of each label as it is printed. The ALX 3138's rugged corrosion resistant, stainless steel and anodised aluminium housing provides durability and maintenance-free operation even in hostile environments.

ALS is a leading European supplier and manufacturer of high-quality, competitively priced labelling systems, consumables and accessories. In addition to the ALX 3138, the company offers a comprehensive range of label applicators, print & apply systems and thermal transfer printers, to meet labelling requirements across an extensive range of industries and applications.
